STEP 3

SUSTAINABLE GAS TO GRID ENTRY CONNECTION CUSTOMER

APPLICATION FORM

APPLICATION FORM CONTENTS

Description	Page Number
Section One Application Form Guidance Notes	Page 3
Section Two Mandatory Project Specific Information Mandatory General Project Information & Requirements	Page 4 Page 5
Section Three Key Important Additional Information	Page 6
Section Four Acceptance	Page 7

SECTION ONE

APPLICATION FORM GUIDANCE NOTES

1.0	Please complete all mandatory fields as requested, and ensure all key important additional information (section 3) is provided as this will help us to prepare your connection offer. If this is not completed then your application may be returned to you.
2.0	Please ensure you check and sign your application form before sending this to us.
4.0	If you need to send additional information (section 3) under a separate document, please ensure your customer reference number (e.g. DAS/XXX/) is clearly marked on all documents.
5.0	To help you complete your application form, the application supplemental information document, provides additional information in respect of our connection models and our processes.

SECTION TWO

Mandatory Project Specific Information

Please complete all Mandatory Fields(*)

Customer Reference No*:	**Customer Company Name*:**
Customer Correspondence Address*:	**Site Location* (please include grid co-ordinates):**
Customer Contact No*.	**Customer Email Address*:**
Registered Company Name*:	**Registered Company Number*:**
Registered Company Address*:	
What type of pipe line would you like to connect onto within the Cadent Network?* (e.g Intermediate Pressure (IP) / Medium Pressure (MP) or Local Transmission System (LTS))	
LTS Only: Do you wish for Cadent to carry out a Conceptual Design Study? (YES/NO) If no, please provide details of the company who will carry out the study:	
What is your estimated Commissioning Date* (i.e Gas Flow):	
What is your Maximum Flow Injection Rate* (Scm/h):	
Your Project Milestones Key Dates*: (Please enter information here or attach as a separate document)	

This application is for the Minimum Connection Model. Should you wish to discuss other options please call to discuss your individual requirements

- You will be the responsible owner and will operate and maintain the Injection Delivery Facility* Y/N
- You confirm you will procure the Injection Delivery direct from Cadent approved vendors* Y/N
- Name the supplier(s) who will be providing and installing the Injection Delivery Facility* *(must be Cadent approved)*
- Name the UIP who will be providing the pipeline installation and connection* (must be GIRS Registered) for MP/IP
- You will procure and install the ROV and RTU* Y/N (Cadent will adopt these)
- Name the Gas Supplier who you will be supplying to.
- You accept that Cadent will oversee and facilitate the connection from your facilities to the Cadent facilities * Y/N

MANDATORY GENERAL PROJECT INFORMATION & REQUIREMENTS	
What date will Cadent have access to the site?*	If you are using a third party for any of the activities when will their work be completed?*

Are there any contractors/consultants working on your behalf that you are happy for us to discuss your project with?*

If Yes please specify –

Will the pipeline be laid entirely within your own land?

Yes ☐ No ☐

If yes, please confirm whether you hold the land on a lease (please provide a copy).

If no, please confirm that you have obtained or will obtain consent from any third party to install the pipeline in their land

Is the land in which the pipeline will be installed subject to any rights which could have an impact on the operation of the pipeline by Cadent? This could include:

☐ occupiers and tenants who have rights to use the land;
☐ rights of others to mine the land
☐ grazing or farming rights etc;
☐ parts of the land where it is unclear what the ownership is;
☐ rights of others including utilities/members of the public to access over the land;
☐ use restrictions
☐ mortgage or bank charge
☐other
If you have ticked any of the above please provide brief details below:

I agree to the principle terms below :- YES/NO

I accept that Cadent will provide an estimated substantial completion date for the works within the Connection Offer.

I accept that any design and planning discussions in respect of my connection will only be conducted after Cadent has issued the Connection Offer.

I accept that Cadent's Standards, Policies and Procedures that are currently in place, will be applied in respect of the facilitation and delivery of my connection and associated works.

I accept that Cadent reserves the right to publicise signed contracts/projects, and will include, Project name, location, flow rate, and the period of time the works are due to be carried out.

I accept that my application may affect the terms of any unsigned offers and/or applications, therefore if in the event interactivity should arise, Cadent will formally advise me.

I agree to provide all planning consents/certificates within 2 months from acceptance of connection offer.

SECTION THREE

Key Important Additional Information

Please provide the type of feedstock you will be processing?
Who is supplying and installing your clean up technology?
Do you have planning consent for your project? Y/N If No, where are you in the planning cycle? What is your anticipated Planning Consent Timeline? Are there any known Environmental Impacts? Are there any known Project Constraints? **N.B.** The customer is responsible for obtaining full planning permission within two (2) months of acceptance of this quotation. In the event that planning consent is not obtained within the 2 month timescale, Cadent reserves the right to withdraw or terminate the connection agreement.
Who is supplying and installing your Anaerobic Digestion Plant Technology?
Will Cadent equipment be incorporated into a single box model (with customer equipment) or be in a separate facility? If single box, will it be secure? (2m high fence surrounding building) If a separate facility, will the facility be secure? (2m high fence surrounding building) Will the whole site be secure? (2m high fence surrounding entire site)
Other: Please provide any other information that you think may be relevant to your project that will help us to provide your Connection Offer
